SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance

the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Abstract: In 2021, a federal discretionary grant was awarded via the National Center for Information and Technical Support for Postsecondary Students with Disabilities Program (NCITSPSD) to the National Center for College Students with Disabilities (NCCSD) at the University of Minnesota and is authorized by Congress in the Higher Education Opportunity Act of 2008 (777.4). The NCITSPSD program grant was originally awarded in 2015 to the Association on Higher Education and Disability (AHEAD). The NCCSD College Disability Resource Database (CeDar) is designed to address a gap in information about services and accessibility for college students with disabilities, who

make up 11% of the undergraduate population. Existing general information about colleges is available in the U.S. Department of Education's on-line College Navigator and College Affordability and Transparency Center, but the only information about students with disabilities in these databases is the percentage of students registered with campus disability services office. At this time, this is the only database that provides systemic collection of information about campus-level, disability-related services, access, and activities at colleges and universities in the United States. The NCCSD survey asks all U.S. campuses to provide basic information about disability services, accessibility of campuses, and disability-related activities that may affect inclusion and the campus climate. The data is available to the public in an accessible and searchable database to assist prospective college students and their families in making informed decisions during the college search process. Because the database is public, researchers and policy makers are able to utilize the data to gather information about disability and higher education in systemic ways.
